SPYPOINT FORCE-11D

Candid Critters, Macon County

HOW IT WORKS

1
Sign up at
NCCandidCritters.org
to reserve a space.

2
Receive an
official invitation
to participate.

3
Complete an online
training course.

4
Borrow a camera trap (or buy
one of your own — limited to
certain brands).

5
Pick a site on public land or your
own property and strap your
camera to a tree.

6
In three weeks,
retrieve the camera.

7
Identify the animals
in your photos and upload
the images to us. (Don't worry,
we'll give you software and
confirm your identifications).

8
Repeat as many times as
you would like and return
the borrowed camera when
you are finished.

Set your Camera!

How to Use a Camera

1. **Switch the camera on.**
2. The menu will default to “Arm Camera”, use the **right arrow key to scroll** through the menu until you see “**Walk Test**”, press ‘OK’

How to Use a Camera

1. Cameras will be set at **knee height**
2. Pointing **straight ahead**
3. Tied around tree using **python lock**

Let's Go!

NCCC Data Sheet

Camera Deployment Information

Volunteer Name:

Exact Date and Time of Camera Setup:

Camera Setup Checklist:

1. Secure camera tightly at KNEE HEIGHT
2. Check that the Date/Time are correct, record this on the datasheet
3. Check that batteries are sufficient (60% or 2 bars) and memory card is cleared
4. Clear vegetation within 4 feet
5. Make sure camera is pointing parallel with the ground. Use sticks to change angle if necessary.
6. Perform the Walk Test, record the Detection Distance on the datasheet.
7. Arm the camera and close it securely

Fill in the deployment location, note the negative on the longitude.

Comments:

Camera Working at Pickup?

☐ Yes

☐ No

If NO what is wrong:

Info you'll get during setup

Uploading your Photos

See Wildlife. Do Science.

What could you find?

Over 40 species so far!

Super cool deer photos

Sign Up!

1. Go to www.NCCandidCritters.org
2. Can either borrow a camera or use your own
3. Make sure to ask your parents for permission!

Animal ID

Red Fox

Scientific name: *Vulpes vulpes*

Conservation Status: Least Concern

Distinctive Marks

Usually red, but can be gray or black

White-tipped tail

Black legs

Black ear tips

Dog-like face

Black legs

White-tipped tail

Grey Fox

Scientific name: *Urocyon cinereoargenteus*

Conservation Status: Least Concern

Distinctive Marks

Gray fur, but can also have red or brown

Black stripe down back

Black-tipped tail

More cat-like face than red fox or coyote

Black-tipped tail

Cat-like face

Coyote

Scientific name: *Canis latrans*

Conservation Status: Least Concern

Distinctive Marks

Varied coloration, typically gray, brown, or black

Long limbs, ears, and snout

Larger and taller than foxes

Long, fluffy tail

Dog-like face

Long, fluffy
tail

Dog-like
face
